*Hero Waifu complys with the broadcasting review regulations.

...Are you a dog??

Oh... I just studied there.
That's all...

I think...

Well, I'm glad
you two are still close.
You've been going out for
about a year now, right?

I'm Sung-tae's
girlfriend!

I thought you
were joking around
when you announced
it in front of the
class like that.

Like, you were
pretending to date
each other because you were
tired of dealing with thugs
and confessions.

Double Kill

STAB!

You were one popular girl last year. You had them all - From seniors to Freshmen. They were all crowded outside our classroom, hoping to get a glimpse of you at least once.

Do you remember all those students? I could hardly believe it. Oh right, didn't you have the senior from the drama club chase after you, too?

Yes, I remember that annoying guy.

But would you look at this? Despite being so popular you picked a guy like Go Sung-tae.

Honestly, I didn't think you two would last at all.

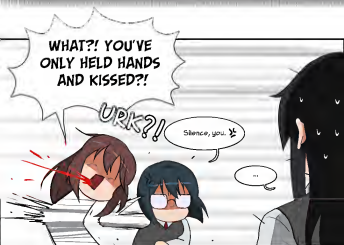

But, when you two started dating, that hopeless Go Sung-tae changed.

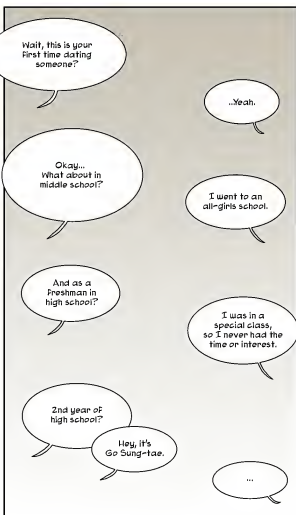

And,

so did you.

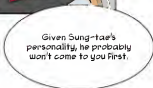

*This probably refers to the time when the kids 3 dispute between redskins and westside 3-fists.

So, can we put this matter to rest? Cheers.
